

Local work

- **Feed and Seed Initiative** - Built on the [FarmOS](#) and [Farm Hack](#) Platforms

organizing tools and knowledge in meaningful way to enable NH scale Grains and Oilseed production - documented on Farm Hack Open Shops

Planting ~ Harvesting ~ Cleaning ~ Drying ~ Transport ~ Storage ~ Processing

- [FarmOS](#) record keeping for management, certification and research. FarmOS is laying the groundwork for ecosystem service payments, Soil Health decision support for biologically and economically profitable regenerative agriculture

- **Expanded equipment lending** ([Rockingham](#) , [Strafford](#) , [Cheshire County](#) Conservation Districts)

- **Silvopasture workshops** (click for gallery)

Regional and National Work

GreenStart continues to grow its collaborative network to increase the impact of local initiatives beyond the NH boarder. Some of the collaborations include:

- [Open Agriculture Learning Series](#)
- [Soil Renaissance](#)
- [Wolfsneck Research Farm](#)
- [Cornell Soil health](#) and [FarmOS](#) integration

- [Farm Hack](#) , [Open Feed Network](#) , Open Shops and [Food Knowledge Ecosystem](#) to create cross disciplined searchable projects by problem statement and management goals.

- [NESARE](#) , [UVM](#) and [NCAT/ATTRA](#) outreach and collaboration on improving the impact and accessibility of projects.
